

## DEPARTMENT OF PAEDIATRIC LABORATORY MEDICINE

December 1, 2018

### **Announcing the Dr. M. Daria Haust Studentship for 2019**

The Department of Paediatric Laboratory Medicine (DPLM) at The Hospital for Sick Children (SickKids) is pleased to offer the Dr. M. Daria Haust Studentship, a summer research experience designed for medical students, preferably in their first or second years. This studentship has been created through an endowment established at SickKids through a generous gift made by Dr. M. Daria Haust, an internationally distinguished pathologist whose contributions to the field of paediatric pathology are legendary. Through Dr. Haust's generosity, an undergraduate medical student will have the opportunity to work in DPLM, a vibrant and innovative clinical department at SickKids, with preference given to paediatric pathology. This studentship provides \$4,500 in funding for a student to undertake a 10 week studentship in DPLM at SickKids. Selection will be made on the basis of academic achievement and demonstrated interest in pathology, as well as the merits of the proposed research, clinical work or academic endeavor. For expressions of interest or to learn more about this exciting studentship, please contact by March 1, 2019:

George Yousef, MDCM, FRCPC  
Chief, Department of Paediatric Laboratory Medicine  
The Hospital for Sick Children  
555 University Avenue  
Toronto, ON M5G 1X8
