Introduction
This pathway was developed by an interdisciplinary clinical team from SickKids using research knowledge, clinical experience, and consensus agreement. This is a general guideline and does not represent a professional care standard governing providers’ obligations to patients.

Target Audience:

- **Inclusion:** Children aged 2-18 years old with no underlying disease or comorbidity who have been required to have a laparoscopic splenectomy by the General Surgery Team.

- **Exclusion:**
  - Patients are to be removed from this pathway if there are significant underlying disease, significant postoperative complications (e.g. bowel obstruction or prolonged TPN) or a change in diagnosis; and
  - If a patient has Sickle Cell Disease please consult hematology for guidance on fluids, oxygen, and pain management. These patients are pre-admitted the day before surgery*

  Care should be revised to meet individual patient needs.

Target Users:

- Surgeons, Nurse Practitioners, residents, fellow, and nurses on ward.
### Guideline Group and Reviewers

**Guideline Group Membership**

1. Monping Chiang RN (EC), MS, FNP General Surgery  
2. Fatma A. Rajwani PT, Quality Analyst, Quality Management Department

**Internal Reviewers**

1. Annie Fecteau, MD Chief of General and Thoracic Surgery

**External Reviewer**

1. Sharifa Himidan MD North York General Hospital

### Implementation Plan

Laparoscopic Splenectomy Care Pathway
• Education and awareness building by General Surgery Program (Surgeons, NPs, fellows, nurse educator) at: fellow orientation (once per year) nursing orientation (every 3 months), and residents orientation (every month).
• Surgeons to communicate any updates in practice to Division of General Surgery.
